

# Transportation Volunteer

Deep Roots works with children, who are disconnected through homelessness, and provides transitional and emergency shelter to families in need. By providing transportation, you will provide families with access to services they desperately need to get back on their feet and give children the opportunity to participate in extracurricular and educational activities. We provide transportation to our residents here at Clairvaux Farm as well as transportation to and from monthly events for children who are or who have been homeless in Cecil County and Delaware.

## **Duties:**

There are several different transportation opportunities. We provide residents with a weekly van run, typically on Thursday to run errands in town. There is also a need for transporting multiple children to and from the Widening the Horizon Monthly Events Program one Saturday per month. We provide a vehicle or you may use your own. We also provide supplemental insurance coverage while you are driving for our organization. If you are interested, let us know the dates and time frames you have available.
